Cady

Raised in the African bush country by her zoologist parents, Cady (Lindsay Lohan) thinks she knows all about the "survival of the fittest." But the law of the jungle takes on a whole new meaning when the home-schooled 15-year-old, also called "jungle freak," enters public school for the first time. Trying to find her place among jocks, mathletes and other subcultures, Cady crosses paths with the meanest species of all - the Queen Bee aka the cool and calculating Regina (Rachel McAdams), leader of the school's most fashionable clique, The Plastics.

When Cady falls for Regina's ex-boyfriend, though, the Queen Bee is stung - and she schemes to ruin Cady's social future. Cady's own claws soon came out as she leaps into a hilarious "Girl World" war that has the whole school running for cover. Cady spends more time with the Plastics, she, too, begins to become one. Filled with drama and laughter, this movie is guaranteed to have you rolling on the floor!
