Smart alleck Nathan, street smart Kelly, socially inept Simon, party girl Alisha and disgraced track star, Curtis were expecting their community service to be boring. However after a freak thunderstorm they discover that it is anything but dull. Bestowed with strange and ironic powers, the five very different twentysomethings realize they have a lot more to worry about than just picking up litter, especially as they discover that they are not the only ones who have been affected by the storm.

The show creates a world riddled by chance, mystery, inexplicable good and evil, and an ongoing irrationality, interrupted by the bonds of face-to-face friendship... and Monty Python-esque hilarity. Joseph Natoli. Misfits is especially engaging and ultimately successful - J.M. Suarez.

Secrets will be revealed, feelings brought to the surface and relationships formed and broken. But they, it's only 12 weeks of community service; what's the worst that could happen?
